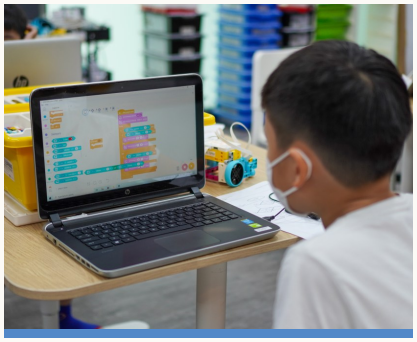
STUDENT CARE

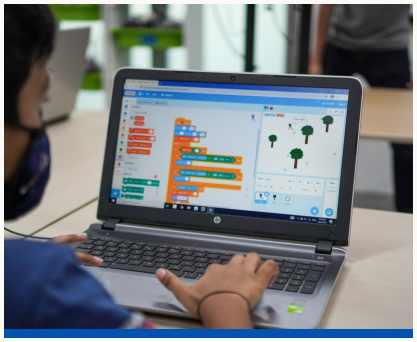
PROPOSED WORKSHOPS BY
NULLSPACE®

PGL EXPERIENCES / INTEREST LIST OPEN

Build. Code. Discover.

A little curiosity can go a long way. We're planning robotics and coding workshops at ProgressLab, with hands-on discovery and guidance from Nullspace.





Class photos: Nullspace / Illustrative programme examples

OUR VENUE

227 Lavender Street

PROPOSED TIMING

Before the year-end school holidays

Exact dates subject to Nullspace availability.

01 / BUILD & EXPLORE

Robotics

Junior Robotics or LEGO Robotics

Assemble a robot, then try programming it with guidance from Nullspace.

2 hours / Work in pairs

Robotics sets are provided for workshop use and cannot be taken home.

S$54.50 base fee / child*

02 / CREATE WITH CODE

Scratch coding

A guided coding workshop

Explore programming in Scratch, with each child working individually.

1.5 hours / Work individually

Device requirements will be confirmed before the session.

S$43.60 base fee / child*

A FEW USEFUL DETAILS

- Minimum **6 children per workshop**. One instructor for up to 10 children; two for up to 20.
- Suitable age groups will be confirmed with Nullspace before booking.
- Printed certificates are available if names are supplied at least one week before the session.

***Base workshop fees include 9% GST.** Transport and any device hire are excluded. Your final total will be confirmed before booking.

Interested? Join the list.

WhatsApp **8098 0781** with your child's name, age, workshop choice and preferred days.

This is an interest list; bookings are not yet confirmed.
